PRACTICUM DETAILS

The practicum can be done in the U.S. or abroad, and it must be related to some aspect of global health. For example, the experience can address needs of an underserved population or be at an agency or organization with a mission related to global health or health equity.

The departmental practicum may be used to satisfy this requirement if it meets certificate criteria. If using the department practicum, students must provide a description of the practicum and justification on how it is related to global health to **Cynthia Salter, cys6@pitt.edu** for review and approval ***prior*** to beginning the experience.

Refer to the Global Health Certificate Student Handbook for additional information. Recommended sequencing for masters students – summer between years 1 and 2. Note that doctoral students may be permitted to use their dissertation research to fulfill this requirement. Refer to the Global Health Certificate Handbook for additional information.
