¹ One advanced quantitative course is required. Choose from the following:

BCHS 2991, BCBS 3002, BCBS 3015, BOST 2016, BOST 2050, BOST 2066, EFOP 3408, HPM 3505, and HUGEN 2080.

NOTE: HUGEN 2070 also qualifies as an advanced quantitative course. However, this course is no longer being offered.

REMINDER: Questions about other courses not on the above list that may qualify to meet this requirement should be discussed with your advisor. If your advisor agrees that the class might qualify, information about it should be forwarded to the Epidemiology Curriculum Committee chair via the Epidemiology Student Services Manager.

OTHER PhD REQUIREMENTS (no credits involved): Contact your academic advisor or the Epidemiology Student Services Manager smithl@pitt.edu for more information. They must be completed prior to graduation.

- **Primary Data Collection & Management Requirement**
- **Independent Development Plan (IDP) submission** (Doctoral students must submit IDP's annually. A reminder about this requirement will be emailed to students in spring term).
- **Presentation Training – Competency in Communication** (two presentations must be delivered)

*Doctoral students interested in following this accelerated sequence will need the approval of their Advisor **AND** the Program Director to exempt from the following prerequisite courses: EPIDEM 2110, BOST 2041, EPIDEM 2180, BOST 2049. This exemption will only be granted if they have previously taken these courses or similar courses in another program. To receive the exemption, students should discuss with their academic advisor and submit transcripts and course syllabi to the PhD program director for approval. Students receiving exemptions are strongly recommended to participate in EPIDEM 2110 or EPIDEM 2180 as a Teaching Assistant given that these courses are required for the preliminary examinations.

**Students who have completed this course performed better on the preliminary exams than those who did not.
